Chief Engineer, West Coast Bureau
Foreign Broadcast Information Service
Post Office Box 307
Reseda, California

Dear Penny:

I have just received your 28 March 1949 letter and have forwarded a copy of it together with the attachments to the Executive with a request that it be considered in the final determination of fair rental of the engineer's residence at Reseda. I have also furnished him a copy of our telecon of 25 March 1949.

Please do not be disturbed about our feelings concerning the irregularities in this case. I perhaps made a little stronger representation in our telecon than was actually necessary. Upon reading this telecon the Executive expressed his regret that this impression had been given.

I am completely satisfied that you approached this problem in your usual honest and conscientious manner. We are anxiously awaiting the report from the Army Engineers in your area. Of course, I do not know what the final outcome of this will be, but I feel reasonably sure that the rental will be in excess of the \$30 bi-weekly amount but that it will be a rental that will be satisfactory to you.

I am very sorry for any inconvenience that you have been caused by reason of our inability to give you a quick decision. I will do everything possible to expedite this decision and conclude final arrangements for you to move into these quarters.

Sincerely,
